

SWISHER HYGIENE

Products & SERVICES

Germs love health clubs. It's no wonder: between the sweat, the showers and the shared equipment, it's the perfect environment for cross contamination.

So how do you protect your employees and members from threats like MRSA, Norovirus, E Coli and Hepatitis? You call Swisher. We're the company that virtually invented the commercial hygiene industry more than 20 years ago, and we're proud to offer the industry's only true full-service health club hygiene programme today.

It's literally everything you need to provide the most hygienic environment possible - and then some. Of course no one can guarantee that they can eliminate germs completely, but when you make Swisher your partner in hygiene, you can be confident that you're doing all you can to deliver a level of cleanliness that your members and employees expect and deserve.

- Weekly service
- Hand sanitisers
- Chemicals and dispensers
- Full-facility pressure cleaning
- Paper products and wipers
- Hands-free technology
- Hospital grade germicide

Protect Your Employees, Your Members, Your Business

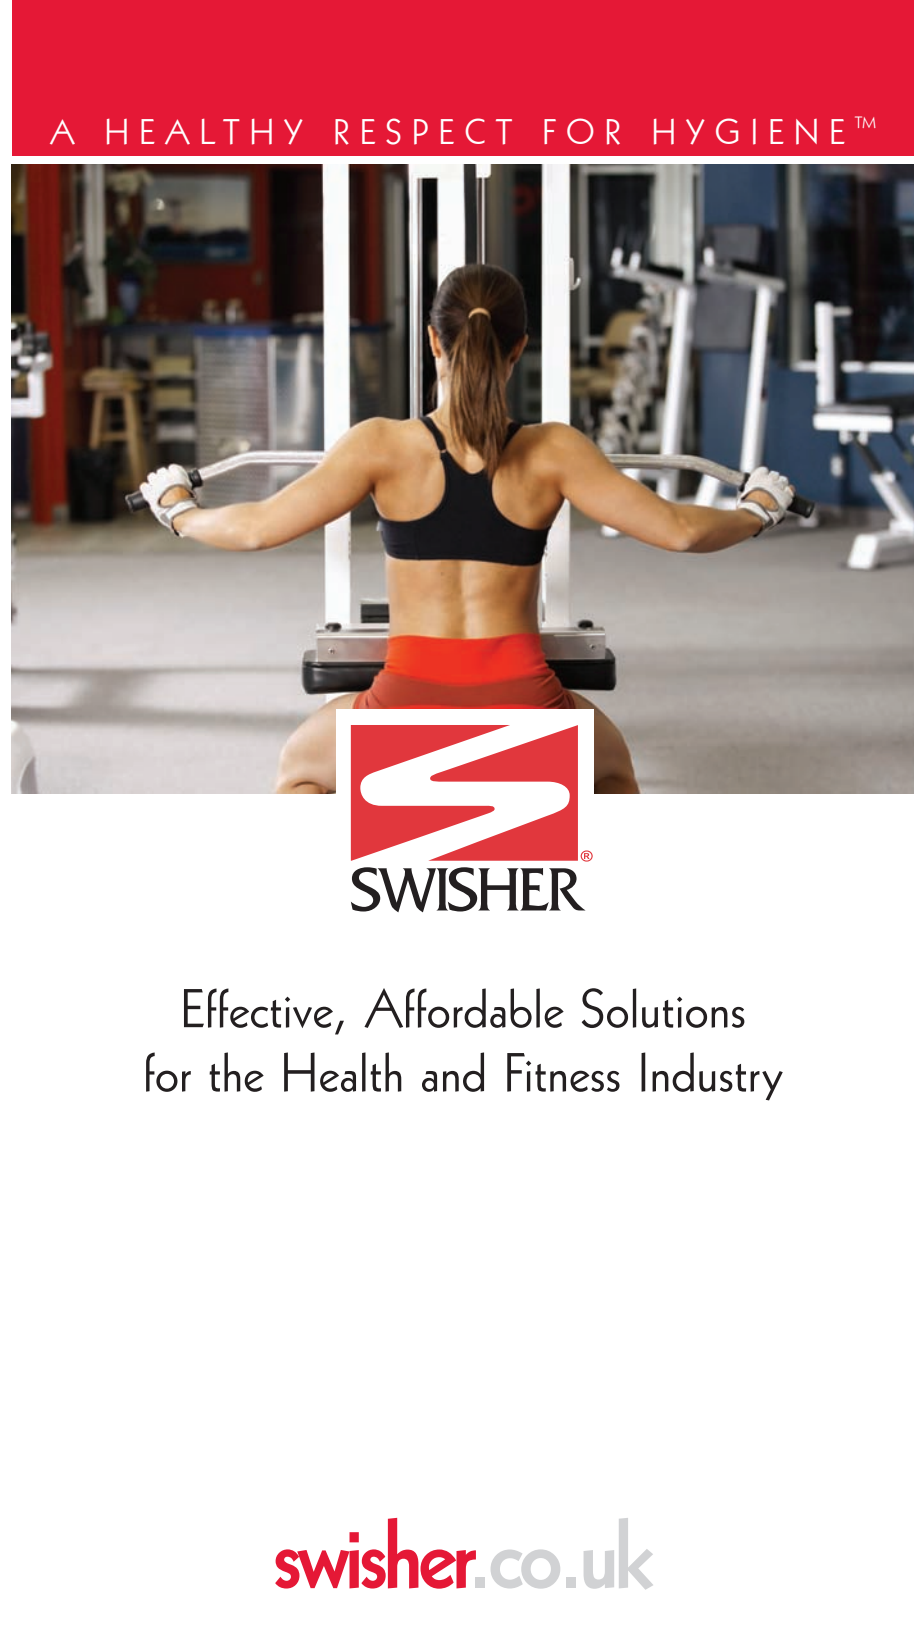

**Our goal is your
100% satisfaction.**

If you are displeased with the service and products we provide for any reason, we will do what it takes to make things right.

If we're still not able to meet your expectations, the service will be free.

No catches. No conditions. No if's, and's or but's. Isn't that refreshing?

Personal Protection

HAND SANITISERS*

Stop germs before they stop your business. Swisher has partnered with GOJO, the world leader in hand hygiene, to provide a full line of anti-bacterials, led by the PURELL® brand, #1 hand sanitiser.

- Earn your members' and employees' confidence with the most recognised names in hand hygiene
- Proven sanitising power, delivers the highest level of protection available
- Effective even in areas like the workout floor and weight room, where water may not be easily accessible
- Wall-mounted dispensers, free-standing dispensers, individual bottles, prepackaged wipes, even foaming formulations available to fit every situation

FOAMING SKIN CARE PRODUCTS

Swisher's soap dispensers use fully-sealed cartridges of high-quality foaming hand soap from GOJO®, the first name in hand care.

- Attractive, rugged dispensers eliminate cross-contamination, tampering and vandalism
- Customised programmes optimise your usage with minimal effort
- GOJO Luxury Foam Hair & Body Wash provides club members with a pre-lathered, easy-to-rinse formula perfect for showers and sink areas
- Regular weekly fulfillment ensures that your dispensers are always working and properly filled
- Multiple dispensers to choose from, including the advanced, hands-free TFX model

PAPER PRODUCTS

Swisher offers a wide variety of first-quality paper from leading manufacturers. Our selection is unbeatable - toilet tissue, hand towels and seat covers in multiple formats - and our pricing is hard to beat, too.

- Contemporary dispensers prevent cross-contamination, resist tampering and abuse
- Jumbo rolls save significantly on storage space and the need for frequent refilling
- Customised programmes accommodate your particular usage patterns
- Regular, weekly fulfillment keeps your facility fully supplied with a minimum of effort

*PURELL is a trademark of Johnson & Johnson and is used under license

Facility Management

CHEMICALS AND DISPENSING SYSTEMS

Never pay exorbitant ready-to-use chemical prices again. Our bulk dispensing systems deliver the same cleaning power you expect from the name brands, but at a fraction of the cost.

- Save more than 50% over ready-to-use chemicals with our bulk systems
- Simple-to-use dispensers prevent waste, misuse, spills
- Automatic dispensing systems ensure proper dilution
- Eliminate the need to store and dispose of 55 gal. drums
- Chemicals include disinfectant, glass & surface cleaner, multi-purpose cleaner and more

FLOOR MATS AND DUST CONTROL

Swisher Hygiene's floor mats are affordable and attractive, rugged and reliable - just right for the busy fitness centre. They're regularly replaced, cleaned and sanitised by our team of technicians, so they always look fresh and professional. We also provide mops, mop components, floor cleaners and even an anti-slip floor treatment for increased safety.

- Placement of floor mats, including front-door scraper models and carpet mats
- High quality synthetic and natural mops promote cleanliness and dust control
- Steady-Step™ texture treatment provides a safe surface for feet
- Expert, full service maintenance saves you time and money

SANIGENICS™

Swisher is the only hygiene service provider to use advanced luminometer technology to test your facility for microbial contamination. Our SaniGenics programme:

- Identifies areas of greatest concern across your facility
- Promotes a specific, customised course of action
- Ensures that existing and potential threats are appropriately addressed
- Recommends particular ongoing protective actions to shield against future outbreaks

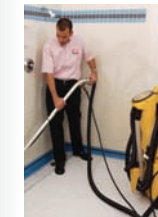

Facility Cleaning & Sanitising

WEEKLY HYGIENE SERVICE

At the heart of Swisher's hygiene programme is a thorough, manual process that eliminates the unsanitary and unsightly buildup of uric acid, mould, mildew, fungi and related contaminants from your porcelain fixtures and sinks.

- Trained professionals provide consistent, expert service week in and week out
- Proprietary techniques reach places where automated units can't
- Routine member contact builds reliable, responsible relationships

SWISHER TOTAL IMAGE®

The Swisher Total Image® programme is a deep-penetrating injection system that delivers a powerful jet of cleaning solution to all surfaces in your facility, from floors to ceilings and everywhere in between.

- Perfect for pools and spas – safe and effective
- Excellent for fitness areas, showers, locker rooms, child care areas and other high-traffic spaces
- Monthly or bi-monthly service ensures a constant level of cleanliness
- Routine treatment promotes a more professional, more satisfactory environment
- Regular use reduces the danger posed by slippery surfaces, contributing to a safer workout space and potentially reducing accident claims and litigation

ANTI-MICROBIAL MISTING

The Swisher Anti-microbial Treatment - also known as SWAT - delivers a potent sanitising solution to every surface in the facility - washrooms, locker rooms, even on the equipment itself. Our micro-misting device ensures a thorough, even distribution of long-lasting germicide in even the hardest-to-reach areas.

- Hospital-grade germicide kills the most common pathogens
- Residual germicidal power keeps on killing between weekly services
- Misting device delivers coverage that even the most meticulous janitorial treatment can't provide
- Safe for human contact - meets all CHIP 3 and COSHH requirements
